GRAPHITE LUBRICANT

# 3R3020

## Description

Excellent aerosol dry-film lubricant that prevents sticking and seizing. It air dries quickly, can be applied to metal, wood and plastics. The 3R3020 provides a smooth film. Also, it is not greasy, is non-flammable, it conducts electricity without being magnetic. The propellant is « ozone friendly » since the environmentally harmful CFCs have been eliminated. This material is available in 12 oz aerosol cans.

## Applications

- Gates
- Transfer wheels
- Coating dies for storage
- Monorails
- Printed circuits
- Hose reels
- Belt & chain guides
- Release coating for core boxes
- Turnstiles
- Mold release
- Spark plug threads
- Winch drums
- Truck roll-up doors
- Garage doors
- Overhead crane rails

Extrusion dies (Storage & break-in)  
Static bleeding Press fitting

## Specifications

Physical properties	
Temperature	-34°C to 426°C (-30°F to 800°F)
Physical Properties	Air dries quickly-requires no bakingCan be applied to all metal, wood and plastic surfacesGreaseless, oil-free - will not pick up dirt or gritElectrically conductive, non-magneticGood lubrication, metal release, anti-weld
