BUTYL

3R852

Description

This material has a good resistance to alkali and acids, but its main feature is its outstanding impermeability to gases and vapors.

Applications

The 3R852 is designated for outdoor use when a product resistant to sunlight, oxidation, ozone and different atmospheric conditions is sought.

Specifications

Technical Data

Polymer	Butyl (IIR)
Color	Black
Hardness (Shore A) \pm 5	60
Temperature	-30°C to 100°C (-20°F to 210°F)
Tensile Strength	1000psi min.
Elongation	300% min.
Compression Set	Fair
Abrasion Resistance	Good
Tear Resistance	Good
Ozone and Sunlight Resistance	Excellent

Impermeability to gases and vapor	Outstanding
Resistance to dilute acid	Excellent
Resistance to aromatic hydro-carbons	Poor
Resistance to water and steam	Excellent
Heat Aging	Very Good
