SILICONE

C24

Description

The C24 sealing tape is made of pure PTFE particles. It is moldable, dry and non-hardening.

Applications

Easy to install, it penetrates in the treading during manual tightening and does not tear when the threads are screwed. This efficient tape can be easily applied to all metal or plastic pipes. It remains flexible to resist vibration and permits easy disassembly of connections when required.

Specifications

Technical Data

Temperature	-260°C to 310°C (-435°F to 590°F)
Pressure	2 900 psi
pH	0-14
Density	39 lbs/ft ³
Elongation	120 %
Thickness	0.003"
Width	1/4", 1/2", 3/4", 1"
Length	520"/roll
