MESH

MESH SS

Description

This stainless steel wire mesh is knitted in a circular pattern and is flexible in both directions so it conforms easily to irregular surfaces. It is available in different wire diameters and withstands moisture, corrosion, vibrations and friction.

Applications

This material is ideal for covering insulation mattresses and protective envelopes for mufflers.

Specifications

Technical Data

Temperature	480°C (900°F)
Wire diameter	0.008" and 0.011"
