INDUSTRIAL

**PON**

## Description

Black oil resistant nitrile rubber hose covered with black neoprene and multiple layers of polyester yarns.

## Applications

The PON type hose is used for the distribution of air and water, and for a majority of petroleum-based products, hydraulic fluids, mineral oils, diesel fuel and refrigerants.

## Specifications

### Technical data

|                |                              |
|----------------|------------------------------|
| Temperature    | -32 to 80 °C (-25 to 180 °F) |
| Pressure (psi) | 250                          |
| Diameter       | 1/4" to 3/4"                 |
