SILICA

TXP1123

Description

This silica tape is similar to TXP1121 but it has an adhesive on one side to facilitate wrapping installations. Upon exposure to high temperatures the adhesive decomposes but the tape stays in place.

Applications

This silica tape offers an excellent protection for cables and hoses against splashing hot metals and radiant heat.

Specifications

Technical Data

Thickness	1/16"
Width	2", 3", 4"
Temperature	985°C (1800°F)
