FIBERGLASS

TXP121

Description

The TXP121 glass tapes are woven with 100% texturised glass yarns. The construction is totally inorganic without a core or blend of any kind. These high quality products offer good resistance to high temperatures (1000°F) and to most fluids encountered in the modern industry.

Applications

These glass tapes are used for wrapping and insulating pipes, valves, heaters, protecting hydraulic and electrical lines, as cushions for metal and plastic extruded products and much more.

Specifications

Technical Data

Temperature	535°C (1000°F)
Strength retention up to	500°F (260°C)
Chemical resistance	Resists most acids, alkalis and solvents
Thickness	1/16", 1/8", 1/4"
Length	1/16" or 1/8" - 100 feet/roll, 1/4" - 50 feet/roll
Width	1/16" and 1/8" - 3/4" to 9", 1/4" - 1" to 4"
