FIBERGLASS

TXP125S

Description

This fiberglass tape is coated with a silicone.

Applications

The TXP125S offers an excellent protection for hydraulic hoses and it resists really well to molten metal splatter. It is beneficial to use this tape to wrap cables and piping since it is not necessary to sever connections.

Specifications

Technical Data

Temperature	Continuous: 500°F (260°C), Short Term: 3000°F (1650°C)
Nominal thickness	0.147" (3.73mm)
Molten splash resistance	Outstanding
Flame resistance	Very good
Abrasion resistance	Very good
Flexibility	Outstanding
Water and oil resistance	Outstanding
