FIBERGLASS

TXP306G

Description

The TXP306G is a fiberglass fabric with a graphite finish which confers much better resistance to abrasion in arduous conditions and high temperature environments. This cloth has a high degree of stability, flexibility and strength.

Applications

Offering a high resistance to flame, flexibility and abrasion, this cloth is an excellent choice for protective cushions.

Specifications

Technical Data

Filament diameter	9μ
Tensile strenght	Warp: 960 N/cm, Weft: 720 N/cm
Weight	438 g/m ²
Thickness	0.40 mm
Temperature	550°C (1022°F)
